**INCLUSIVE COMMUNITY DISASTER RISK REDUCTION AND MANAGEMENT**

**THE PHILIPPINES**

### PROJECT GOAL

Increase disaster preparedness capabilities of 20 communities in the province of Occidental Mindoro.

### OBJECTIVE 1

Community-level DRRM related committees are inclusive, gender-responsive, promote safety and protection of children and represent the diversity of their communities.

### OBJECTIVE 2

Community-level DRRM related committees’ capacities are strengthened to lead, implement and deliver gender-responsive and inclusive DRRM programs, particularly to women, girls, and persons with disabilities further made vulnerable by intersectionalities such as ethnicity, age, gender and ability.

931 Indigenous People (IP) families received the E-Salakayte and E-Anlangfe Kits (modified hygiene kits). Distribution of the kits was coupled with information, education and communication materials. The modified hygiene kits include:

- 5 pieces of hand soap
- 4 bars of laundry soap
- 5 washable face masks
- Sanitary cloth (to be used by women and girls during their menstrual period)
- 1 water container

Risk Communication and Community Engagement: Five public service announcement (PSA) broadcasts were aired over the radio with messages related to:

- COVID-19 prevention
- Child protection
- Stress management tips for children during pandemic
- Effects of the pandemic on children
- Support to children's home education and online safety

12 portable handwashing facilities with 30 pieces of hand soaps per unit provided to 12 communities/schools:

- 6 IP schools /communities
- 3 Island communities
- 3 lowland communities

Public Service Announcement through “Bandilyo”: Provision of 4 solar powered portable speakers and round horns (“trumpa”) to 4 large IP communities with inconsistent access to electricity. A pre-recorded radio-PSA was aired since the area cannot be reached by the radio signal. These devices were utilized by the community as an early warning system by providing information to community members about hazards such as typhoons and updates on the pandemic.

Child-friendly and gender-responsive feedback mechanism: 20 feedback boxes were distributed to 20 target communities for individuals to participate and provide their feedback through writing if they are uncomfortable using a text message or cellphone.
