INVITATION TO TENDER

ITT FY25 - 0205 Global Financial Service Providers

1. Background Information on Plan International

Plan International is an independent development and humanitarian organisation that advances children's rights and equality for girls.

We believe in the power and potential of every child, but know this is often suppressed by poverty, violence, exclusion, and discrimination. And it is girls who are most affected. Working together with children, young people, supporters, and partners, we strive for a just world, tackling the root causes of the challenges girls and vulnerable children face.

We support children's rights from birth until they reach adulthood, and we enable children to prepare for and respond to crises and adversity. We drive changes in practice and policy at local, national, and global levels using our reach, experience and knowledge.

For over 85 years, we have rallied other determined optimists to transform the lives of all children in more than 80 countries.

In our commitment to addressing global emergencies, Cash and Voucher Assistance (CVA) has emerged as a preferred modality whenever feasible. To ensure rapid deployment of aid, we maintain pre-crisis agreements with financial service providers (FSPs)¹, aggregators² enabling swift and efficient responses during crises.

We won't stop until we are all equal.

2. Summary of the Requirement

Plan International is inviting interested parties to submit bids for the provision of Financial Services to facilitate the distribution of Cash and Voucher Assistance (CVA) across its **global** offices. The successful Bidder(s) will be expected to enter into a three-year Long-Term

¹ **Financial service provider (FSP)** is an entity that provides financial services, which may include digital payment services. Depending upon your context, FSPs may include e-voucher companies, financial institutions (such as banks and microfinance institutions) or mobile network operators (MNOs). FSPs also includes many entities (such as investment funds, insurance companies, accountancy firms) beyond those that offer cash transfers or voucher services, hence within CVA literature FSP generally refers to those providing transfer services. In the context of CVA, entities that would typically be categorized as payment service providers (PSPs) tend to be included under the FSP umbrella. PSPs are third party entities that help merchants to accept a range of payment methods by connecting them to the broader financial infrastructure. They work with acquiring banks (payment processors) to securely manage transactions from start to finish.

² **Aggregator.** An entity that consolidates financial transactions for processing, for example enabling the flow of payments between payers and recipients across multiple financial service providers (FSPs). Aggregators provide systems integration by connecting FSPs to third party systems. They may also provide additional services such as notification of successful payments, reconciliation, and receipts.

Agreement (LTA) on a non-exclusive basis with Plan International.

Plan International reserves the right not to award a contract due to this Invitation to Tender or to award contracts to multiple successful Bidders.

ITT Overview and Instructions

2.1 Overview

2.1.1 Plan Approach

Over the years, we have enabled significant innovations in CVA mechanisms to overcome challenges such as access to hard to access locations, limited network coverage, and operational constraints in fragile environments. Digital transfer solutions, for instance, have facilitated seamless assistance delivery while prioritizing the safety of both participants and implementing teams.

In recent cross-border emergencies, our efforts have highlighted the importance of engaging service providers capable of operating across multiple countries. Such providers enable us to support refugees on the move, minimize duplication of assistance, and allow programme participants to utilize cash across neighbouring countries.

2.1.2 Purpose

The purpose of this Tender is to establish framework agreements with multiple global/regional financial service providers to enable a rapid and cost-efficient response during emergencies. The framework agreements will serve as a foundational document, outlining key details such as scope of services, coverage areas, fee structures, participant enrolment processes, disbursement methods, data management and protection, data interoperability with 3rd party, real-time monitoring and reporting mechanisms.

The framework agreements will provide Plan International Country Offices with critical information, enabling them to design response plans and develop project proposals more accurately and efficiently. By streamlining these processes, the framework agreements will enhance Plan International's humanitarian CVA programs through scalable and compliant cash and voucher transfer mechanisms, enhancing our ability to deliver timely and effective assistance to those in need during crises.

The selected financial service providers will support Plan International's humanitarian CVA programs through scalable and compliant cash and voucher transfer mechanisms.

2.2 Instructions to Tenderers

These instructions are designed to ensure that all Bidders are given equal and fair consideration. It is the Bidder's responsibility to ensure their offer is complete and that they provide all the necessary information asked for in the format specified, or risk their offer being rejected. 4. Selection Criteria

Bids will be assessed against predetermined criteria which has been developed and agreed by the Tender Panel prior to launching this Tender process. The information gathered in '**Annex C -Technical Questions,**' '**Annex B – Pricing Schedule**' and any other requested

³ **Know Your Customer (KYC)** usually refers to the information that the local regulator requires **financial service providers (FSPs)** to collect about any potential new customer to discourage financial products being used for money laundering or other crimes. KYC rules apply **customer due diligence** to the task of screening and verifying prospective clients. Some countries allow FSPs greater flexibility than others as to the source of this information, and some countries allow lower levels of information for accounts that they deem to be 'low risk'. This 'risk-based' approach is recommended by the institutions setting international standards on these matters (e.g., the Financial Action Task Force (FATF)).
