COUNTRY STRATEGY

2023-2027

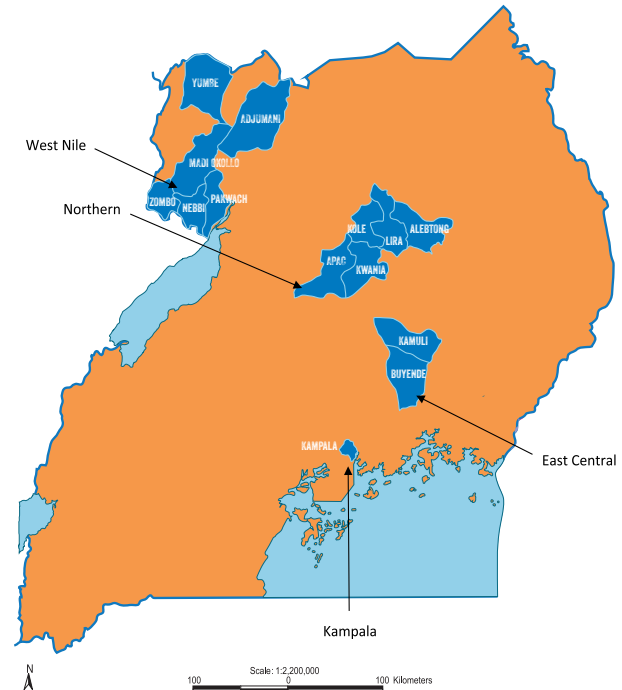

Plan International strives to advance children's rights and equality for girls all over the world. As an independent development and humanitarian organization, we work alongside children, young people, our supporters, on the challenges facing girls and all and partners to tackle the root causes vulnerable children.

We support children's rights from birth until they reach adulthood and enable children to prepare for and respond to crises and adversity.

“ WE DRIVE CHANGES IN PRACTICE AND POLICY AT LOCAL, NATIONAL, AND GLOBAL LEVELS USING OUR REACH, EXPERIENCE AND KNOWLEDGE. ”

Since 1937 we have been building powerful partnerships for children, and we are active in over 75 countries. Plan International Uganda (PIU) was established in 1992 and is one of the leading child rights organizations in Uganda.

WHERE !

HOW !

We will work through partners acting as a capacity builder of local Civil Society Organisations, community based and youth led organisations.

As a strategic partner to, local national and international actors.

As a powerful convener working with children, young people and diverse partners to advocate for policies and programmes that work for children and gender equality, while building more effective civil society-government relations.

In line with Plan International's global position on climate change, we believe that "completing quality education and girls' ability to enjoy their sexual and reproductive health and rights empowers them to contribute to more resilient and adaptable societies and greener economies."

Across all of our operations we will become a more climate change aware organization and actively reduce our environmental impact.
